

“At NDB Wealth, we're all about keeping things simple and easy. Welcome to a new world of financial freedom - banking that makes sense to YOU. Welcome to our revolutionary new ONE ACCOUNT.”

What makes the ONE ACCOUNT ahead of its time really, is its ability to evolve and grow into pretty much any financial product you'd like it to be. You can choose to operate it as a simple current account to begin with by crediting your salary. Sweep anything in excess of your cash needs into your money market account or invest in the corporate debt or share market to speed up your savings. Add in a retirement savings or an income plan for yourself or an education plan for your kids into the mix - all this while using your VISA credit card for all your spending needs.

DEPOSIT, SAVE, INVEST, WITHDRAW, PLAN - all in one place, all with ONE ACCOUNT from NDB Wealth.

Regular Savings and Income

So you've chosen an NDB Wealth product that fits in perfectly with your savings requirements, and you're all set to do whatever it takes to achieve your savings goal, a down payment on a new home or a car, an overseas vacation, an education plan for your child or a retirement plan for yourself.

What is a Regular Savings Plan?

This means that you could opt for an automatic Savings Plan where your bank could sweep or transfer a predetermined amount of money to your selected NDB Wealth product each month.

What is a Regular Income Plan?

With an Income Plan NDB Wealth will credit your selected bank account, with ANY bank, with a predetermined amount of cash each month to meet your monthly expenses.

Keep things simple & easy, with banking that makes sense, to you.

Essentially, our great one account is a built-in bundle of 3 ESSENTIALS.

We've got it all worked out!

Most of us really need to do only a few basic things with our cash. We'll need an account to DEPOSIT what we earn, SAVE some of it, INVEST a chunk of it maybe and SPEND it. Problem is, so far, you probably haven't been able to do all of this with just ONE account,

at ONE bank. Keeping up with the gamut of financial products for yourself, let alone keeping an eye out for the best possible rates on your deposits and finding the time to maintain all of them is a chore in itself.

A CURRENT ACCOUNT

with a cheque book, ATM Card and online banking facilities

A VISA CREDIT CARD

with extra super offers of course!

AAA RATED MONEY MARKET FUND

which by the way gives you high returns on savings, completely tax free!
