HOW TO INVEST IN NDB WEALTH FUNDS

NDB Wealth Funds are a series of unit trust funds which offer investors with a diversified range of Mutual Funds depending on their different risk, return profiles and liquidity needs. The existence of several Funds will enable investors to determine their preferred level of exposure to risk by spreading their investments across the series of funds.

NDB Wealth Islamic Money Plus Fund, Short term LKR Treasury Fund, NDB Wealth Income Fund, NDB Wealth Income Plus Fund, NDB Wealth Gilt Edged Fund, NDB Wealth Growth Fund, NDB Wealth Growth & Income Fund, NDB Wealth Money Fund & NDB Wealth Money Plus Fund are licensed by the Securities & Exchange Commission of Sri Lanka under the SEC Act No 36 of 1987, amended Act No 26 of 1991 and Act No 47 of 2009.

Each Fund in the series will reflect a particular level of risk ranging from virtually “no risk”, (i.e., through a money market fund invested solely in government securities) to “higher risk” (i.e. through a fund invested being exclusively an Equities) with increasing opportunities for capital appreciation. The spectrum will be completed by the other Mutual Funds offered, by investing in any one or more combinations of asset classes. Therefore, the Funds will offer investors a wide range of investment opportunities according to their risk, return and liquidity preference.
