Financial statements for the period ended 30th June 2023

Fund Review 1st Half 2023 - NDB Wealth Islamic Money Plus Fund

In the first half of 2023, Sri Lanka experienced a significant decrease in interest rates. The Central Bank of Sri Lanka (CBSL) and the Monetary Board raised policy rates by 100 basis points in March 2023 to meet the requirements for securing the IMF Extended Fund Facility (EFF) arrangement. Subsequently however, CBSL implemented aggressive rate cuts from June 2023, reducing policy rates by 250 basis points to stimulate the economy following a historic contraction in 2022. As a result, the Standing Lending Facility Rate (SLF) stood at 14.00% and the Standing Deposit Facility Rate (SDF) at 13.00% by the end of the first half of 2023. In this backdrop, interest rates across the yield curve dropped, with the benchmark 364-day Treasury bill rate falling from 29.16% in end December 2022 to 16.99% by the end of June 2023 (*Source: Central Bank of Sri Lanka*).

In the 2H2023, a continued decline in inflation is anticipated, primarily attributed to the appreciation of the Sri Lankan Rupee and the easing of global commodity prices as well as the base effect. These factors are expected to provide room for a more relaxed monetary policy stance, aimed at stimulating economic activity during this period.

On the fiscal front, overall budget deficit for 2023 is expected to hover in the range of approximately LKR 2.40 Tn (vs. 2.46 Tn in 2022), amidst better revenue collection and curtailment of capital expenditures. Thus, going forward significant fiscal consolidation measures and structural reforms will have to be introduced as part of an IMF program in order to achieve debt sustainability and overall macro-economic stability.

During the period under review the NDB Wealth Islamic Money Plus Fund yielded the following returns commensurate with the risk parameters and the objective of the Fund:

	NDB Wealth Islamic Money Plus Fund	*Average Weighted Deposit Rate (AWDR) ^{*6-month avg.}
Performance - 1 st Half 2023	8.28% (after fees)	N/A
Annualized Performance - 1 st Half 2023	16.56% (after fees)	14.98%

With inflation under control, Central Bank is expected to be able to implement further monetary easing to foster economic recovery and further decreases in interest rates may be foreseen during the second half of the year.
